

**COMPANY ENVIRONMENTAL
POLICY STATEMENT**

Land Science Limited is committed to minimising the impact of its activities on the environment. The key points of its strategy to achieve this are:

- Minimise waste by evaluating our day-to-day operations and ensuring they are as efficient as possible.
- Re-use equipment and materials where possible, by repair or repurposing wherever feasible
- Actively promote recycling both internally and amongst its customers and suppliers.
- Ensure all wastes are handled appropriately by suitably licenced waste management contractors in accordance with our duty-of-care.
- Minimise emissions through the selection and use of its fleet and the source of its energy supplies.
- Source materials and equipment that minimise the environmental impact.
- Meet or exceed all the environmental legislation that relates to the Company.
- Provide measures to prevent environmental incidents, and measures in place to actively deal with any incidents should they occur.
- Recognise and celebrate recognisable achievements in attaining or exceeding Environmental standards.
- Regularly review technologies, standards, industry best practice, laws and regulations etc, and strive to be the best in our sector.

In addition, Land Science Limited is committed to ensuring that the technical advice it provides materially considers environmental impact and sustainability, in particular the use of construction materials, plant movements, and landfilling.
